PROJECT EXPERIENCES

Portfolio web -nextoex

Create a sleek and modern personal portfolio website to showcase your development skills and projects. The website should be built using React, HTML, CSS, and JavaScript, demonstrating your proficiency in these technologies.

- Technologies - react,html,css VS Code

<https://github.com/IT21158636/projectportfolio1.git>

2nd Year – 2nd Semester

Online Buying and Selling webapp - CRISP CROPS (Group Project)

Crisp Crops is an online buying and selling platform designed specifically for farmers who cultivate and sell fruits and vegetables. In this webapp farmers can sell their harvest directly or they can add harvests to the biddings.

My role is Stock management system. In my role I created a stock form to input stock, and manage stocks.

- Technologies - MERN Stack, VS Code

2nd Year – 1st Semester

Online bus reservation System Platform (Group Project)

This web application is designed to online bust ticket reservation. My role is user login & registration. My responsibility is adding new users and manage the details, manage users accounts.

- Technologies - Java, Apache Tomcat, Eclipse

<https://github.com/IT21158636/bus-ticket-reservation-system-java-project.git>

2nd Year – 1st Semester

SL backpacking mobile App (Group Project)

- Technologies - Kotlin

https://github.com/IT21158636/SL_backpacking-app.git

1st Year – 2nd Semester

Online app store Webapp (Group Project)

- Technologies - PHP, HTML, CSS, SQL, JavaScript

<https://github.com/IT21158636/lwt-online-Appstore-frist-year-project.git>

EXTRA CURRICULAR ACTIVITIES

- Top Committee member of Youth Sports Clube Welimada
- Member of School Prefect
